■ Professional Summary

iOS Developer with 2+ years of hands-on experience delivering production-grade iOS and macOS applications across AI, health, productivity, and media. Proficient in Swift and SwiftUI with strong command of the full Apple ecosystem — from architecture and API integration to App Store deployment and subscription management.

■ Professional Experience

iOS Developer

Pixster Studio · Ahmedabad, India **Jun 2023 — Present**

- Engineered and shipped multiple production iOS and macOS applications across full SDLC from architecture to App Store release
- Integrated AI-powered features including real-time translation, sketch-to-art generation, and contextual smart suggestions
- Implemented subscription management and in-app purchase flows via Qonversion — paywall logic, trial handling, receipt validation
- Configured Firebase stack (Auth, Firestore, Crashlytics, Analytics, Cloud Functions) across multiple live applications
- Integrated Singular SDK and Meta Ads for marketing attribution; set up A/B testing on key conversion screens
- Built offline-first capabilities with local data persistence for seamless experience without connectivity
- Managed App Store Connect workflows: certificates, provisioning profiles, TestFlight, and production deployments
- Collaborated with Figma-based design teams and contributed to UX decisions improving app retention

iOS Developer Intern

Yudiz Solutions · Ahmedabad, India **Jan 2023 — Jun 2023**

- Gained hands-on proficiency in Swift and UIKit — built UI components, navigation flows, and REST API integrations
- Developed and tested feature modules within a professional agile iOS development team
